INSTRUCTIONS

Only for domestic use and not for commercial use!

Important: Keep these Instructions for future reference.

Unpack all the parts and elements of the set and place the components on the top of the carton or other clean surface. This protects your new product. Please also pay attention not to scratch the floor while working- with tools.

Keep small parts out of the reach of children.

Check the delivery for completeness. Later complaints cannot be accepted. Make sure that this product is fully

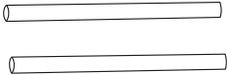

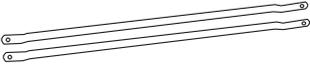

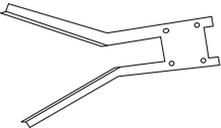

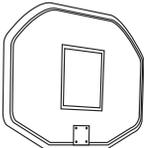

assembled before use, as shown on the illustration.

Check all elements and parts for damages. Despite careful checks since it may happen that even the best product takes damage during the transport.

In this case, do not build up of your product. Defective parts can endanger your health.

For cleaning use a sponge and warm soapy water. Do not use solvent based-cleaners or detergents for example Bleach those can damage the product.

WARNING!

This basketball stand is only for private use and not for commercial use!

Read these warnings before using the product carefully!

Disregard can lead to serious injury and / or property damage!

Make sure that all users read these warnings, understand and observe!

- Read the assembly instruction for proper installation.
- Fill the base of the basketball basket with 80kg water or 90kg sand to prevent it from tipping or wobbling. Without filled base do not upright the product. It could tip over and cause injury and/or property damage. An optimal effect is when you fill sand into the base and immediately before the base is filled with it, "compact" with water.
- If you pour water into the base you must ensure that it is not able to freeze! At the time of frost, we recommend to drain the water and store the product protected from the weather.
- The surface of the base must be smooth and free of sharp or hard objects that could damage it. Holes and similar damage can cause an upset. Do not cover/do not complain the base with green waste or waste. As a result, the material damage (corrosion or degradation phenomena).
- Do not play when the weather conditions do not permit this. Especially in windy conditions, the product may fall eventually. Rain can damage the components.
- Set up the basketball stand on a level and firm ground!
- Do not stand on the rim or other components (backboard or supports) or hang on to it firmly.
- Do not climbing or not slip up and down at the bar, or do not shake it. The item may fall.
- While playing, especially when throwing maneuvers (like slam dunks), you need to keep your face away from the edge of the basket, backboard.
- Do not wear jewelry while playing (eg, bracelets, watches, rings, necklaces), which might get caught in the net, or catch it on other components. Also pay attention to the selection of clothing. Wear flat shoes and no loose clothing.
- The contact of teeth or the face with the components of this product may result in injury.
- Do not allow children to move or adjust the basketball stand.
- Keep away fingers and hands from moving parts when adjusting the level or by transport. Risk of injury!
- Check the product before each use for stability, damage or wear. If you notice a defect, do not play with the product!
- Do not leave the basketball stand unattended or do not play with it, when the rollers are adjusted for transportation.
