ENG

**INSTRUCTIONS FOR USE** • Before fitting, ensure the child is within the correct age and weight category as recommended on the product label. • Wet armbands slightly and slide gently to top of both arms • To inflate, squeeze the base of the valve and blow • Inflate until firm. Do not over inflate • Ensure stoppers are fully inserted • For freedom of movement, ensure the non-inflated panel is positioned under the arm, next to the body • Place the child in the water, checking the buoyancy is correct to suit their swimming capabilities • Hold the child carefully until they become comfortable with the balance and new experience • Do not force the learning process • Make it fun and encourage the child to take the lead • Hold the child's hands and pull gently through the water, encourage kicking and splashing • Encourage them to use some kind of swimming stroke, such as doggy paddle • Always remain close to the child • Once the child is swimming unaided, professional teaching is recommended to further develop swim strokes • Deflate by removing the stoppers from the valves and squeeze to release air from the chambers

**CARE INSTRUCTIONS:** To ensure long life, rinse in cold water after use and hang to dry naturally. Do not leave exposed to direct sunlight. Store flat in a cool dry place. Check seams regularly for wear and tear. Replace if the inside floats come apart or disintegrate. The product or float should not be inserted in the mouth, bitten, or chewed on. Pieces of the material bitten or torn off are a choking hazard.

**WARNING:** Will not protect against drowning. Use only under constant supervision. • TO BE WORN ON UPPER ARM ONLY • ALL COMPONENTS SHALL BE WORN. Always fully inflate all air chambers.

Depending on frequency of use, the plain armbands may need replacing after 5–6 years from the production date. Depending on frequency of use, the patterned armbands may need replacing after 3–4 years from the production date. Disposal of packaging materials: please dispose of packaging materials responsibly in a recycling bin. Disposal of the product: when disposing of your buoyancy device please ensure to carefully cut or separate the device so others are not able to use it.

ARMBANDS 0-2 years

ARMBANDS 2-6 years

ARMBANDS 6-12 years

ARMBANDS 12+ years

ROLL UP ARMBANDS 2-12 years
